GAMES DESIGN AND ART LONDON SHOW	WINCHESTER SCHOOL OF ART	JUNE 2018	VITRINE	6

## Vitrine

The sheet of perspex is to sit on top of x2 running sheets on top of the designated table. Much like the photo attached. The vitrine perspex sheet might need a dust down, as well as the table needing a slight clean. Books to be stacked on top, in two rows with 3-4 piles in each row.

NB: These 2 sheets are slightly shorter than the rest of the running sheets, these are in the tubes in the centre of the roll of a running sheets.

If the space is looking empty still the rest of the running sheets can be hung, just ensure they hung consistently and visually appealing.
